

Benefits Network Named Overall "Best Place to Work in Western PA"

Benefits Network has been named as "The Best Place to Work in Western PA." This marks the second year in a row that our firm earned both the #1 overall ranking and the #1 ranking among small businesses.

The award was presented by the Pittsburgh Business Times at an event held on October 19 at the Omni William Penn in downtown Pittsburgh. Seventy eight companies achieved finalist status.

Lamar Outdoor Advertising took top honors in the medium category, while Hefren-Tillotson Inc. earned the top spot for large companies. Benefits Network edged out the Pittsburgh division of Microsoft, which finished second overall and second in the small business category.

As I said in our acceptance speech at the ceremony, this award is a tribute to the culture at Benefits Network - a culture that carries through to the many customers that we serve. Please join me in congratulating the excellent team of professionals that comprise Benefits Network. In my view, it truly is "The Best Place to Work!"

Earlier this year, Benefits Network also once again earned a place on the "Pittsburgh 100" list of fastest growing companies.

Benefits Network president and CEO David Straight, center, is surrounded by employees following the 2011 Best Places To Work in Western Pennsylvania Awards. The company won in the Small Company and Overall Winner categories.
